HYBRID ENGINE

7-DAY FREE TRIAL — FULL WEEK SAMPLE

Train like you mean it. See what the program delivers.

ABOUT GL HYBRID ENGINE

GL Hybrid Engine is a structured daily training system built for competitive hybrid athletes — people who run, lift, and compete. Every session has a purpose. Nothing is filler. The structure is periodized — each week builds on the last, each block builds on the previous one.

You are not just working out. You are building a race-ready engine.

WHY THIS TRIAL MATTERS

This 7-day sample is a real week of GL Hybrid Engine programming — not a watered-down preview. Same quality. Same structure. Same attention to detail as full membership. By the end of day 7 you will know exactly what the program demands.

HOW TO FOLLOW THIS TRIAL

You already selected your program on the website. Here is how to use this PDF based on your plan:

FULL PROGRAM — \$44.90/mo

Follow every session exactly as written — Monday through Saturday. All strength, all running, all conditioning. Nothing skipped.

HYBRID DAILY — \$29.90/mo

Follow the running and conditioning sessions only: Tuesday, Thursday, Friday, Saturday. Skip Monday and Wednesday strength days.

STRENGTH BLOCK — \$21.90/mo

Follow the strength sessions only: Monday lower body and Wednesday upper body. Skip all running and conditioning days.

All sessions include scaling for Beginner, Intermediate, Advanced, and Elite. Choose the level that matches your honest current capacity.

- 50m Light Sled Push
- 500/450m Row

- 100m Light Farmers Carry
- 500/450m Ski
- 50m Bodyweight Walking Lunge

Zone 2 = fully conversational the entire time. If you cannot speak in full sentences, slow down.

COOL DOWN

2 Sets: 1:00 Hip Flexor Stretch · 1:00 Posterior Shoulder Smash

WEEK 1 — DAY 2 · TUESDAY

RUNNING DEVELOPMENT

Hybrid Daily + Full Program · ~50 min · RPE 6-7

WARM UP

Run warm up drills — 2 rounds x 20m: A-skips · B-skips · High knees · Butt kicks · Bounding

WORKOUT

5 min easy jog

Speed Work — 5 sets:

15 sec building stride to 10k race pace · 45 sec recovery jog

Zone 2-3 Intervals — 20 sets:

90 sec Run @ Zone 2-3 · 30 sec Walk

Zone 2-3 = controlled effort, breathing elevated but sustainable. Short sentences possible.

5 min cool down jog

EXTRA CREDIT — CORE

Tabata (20 sec work / 10 sec rest x 8 sets): Hollow Rock · rest 2 min · Tabata: Arch Rock

COOL DOWN

2:00 Calf Stretch each side (bent or straight knee) · 2:00 Pigeon Pose each side

WEEK 1 — DAY 3 · WEDNESDAY

UPPER BODY STRENGTH + HYROX INTENSIVE INTERVALS

Strength Block + Full Program · ~70 min · RPE 7-8

WARM UP

Crossover Symmetry Activation OR Banded 7s — 7 reps of each movement

Barbell Prep — 2-3 rounds: 10 Hand Release Push Up · 5 Single Arm Bench Press each side

WORKOUT — STRENGTH

Bench Press — Establish 6RM

Warm up progressively. Take sets of 2-4 reps until you hit the heaviest load possible for exactly 6 clean reps.

Superset — 3 sets:

- 4 Strict Weighted Pull Up
- rest 30 sec
- 125m Farmers Carry @ HYROX loading
- rest 30 sec
- 30 sec Hand Over Hand Sled Pull
- rest 3 min (easy row) between sets

HYROX BLOCK — WORKOUT PREP

2 sets: 100m Row · 25ft Farmers Carry · 4 Sandbag Lunges · 25ft Sled · rest :30

HYROX INTENSIVE INTERVALS — 6-10 sets, new set every 3 min

Odd sets: 200m Run + 250/225m Ski

Even sets: 200m Run + 250/225m Row

Moderate effort — sustainable throughout. Cap each set at 2:30.

COOL DOWN

3-5 min easy cardio · 2 Sets: 1:00 Chest Stretch · 1:00 Couch Stretch

RECOVERY + MOBILITY

All Programs · ~45 min · Zone 2 only — no intensity today

RECOVERY SESSION

3 Rounds @ smooth Zone 2 effort — rotate through:

- 3 min Run
- 3 min Row
- 3 min Ski
- 3 min Bike

MOVEMENT & MOBILITY

2-3 Rounds:

- 5 each side World's Greatest Stretch
- 8 Jefferson Curl (light)
- 1:30 Deep Squat Hold
- 10 each side Thoracic Rotations

Thursday recovery is not optional. It is programmed. The aerobic work maintains blood flow and clears metabolic byproducts from Wednesday. The mobility work addresses patterns that degrade under fatigue: hip mobility, thoracic rotation, squat depth. Athletes who skip recovery sessions accumulate fatigue faster than they adapt.

PLYOMETRICS + MIXED CYCLICAL EXTENSIVE

Hybrid Daily + Full Program · ~70 min · RPE 6-7

WARM UP

Run warm up drills — 2 rounds

PLYOMETRIC WORK

3 sets — rest 2 min between sets:

- 12 Jumping Lunges each side
- 4-5 Drop Step to Box Jump

MIXED CYCLICAL EXTENSIVE — 4 sets @ aerobic pace

Odd sets: 1000m Run + 500/450m Row · rest 1 min

Even sets: 1000m Run + 500/450m Ski · rest 2-4 min

Aerobic pace throughout. Consistent splits set to set. If pace drops significantly, you went too hard.

EXTRA CREDIT — PUMP CIRCUIT

3 sets — 1 rep before failure on each movement:

- Barbell Bicep Curl @ RPE 9 · rest :30
- Lying Skull Crusher @ RPE 9 · rest :30
- Double Dumbbell Zottman Curl @ RPE 9 · rest :30
- Tate Press @ RPE 9 · rest 2 min after each set

Minimum 10 unbroken reps per movement to start. Log all weights.

COOL DOWN

20 min outdoor walk — continuous nasal breathing · 1:00 Foot Smash each leg · 2:00 Toe Touch Stretch

MINI HYROX — FULL RACE SIMULATION

Hybrid Daily + Full Program · ~90 min · RPE 7-9

WARM UP

Movement prep — 3-5 reps each: Hip circles · Arm swings · Leg swings

Station preview — 1 round minimal effort: SkiErg pulls · Wall balls · Burpee broad jumps · Rowing strokes

EXTRA CREDIT STRENGTH — choose one option

Option A — Power Clean:

8 min EMOM: 2 Power Clean @ 70-75% 1RM

Option B — Deadlift:

Build to 3 reps @ RPE 9 · then 3 sets x 3 reps @ 85-90%

Option C — Strict Press:

Build to 3 reps @ RPE 9 · then 3 sets x 3 reps @ 85-90%

WORKOUT PREP

1 set: 100m Run · 5m Sled Push · 5m Sled Pull · 100m Ski · 3 Burpee Broad Jumps · 10m Farmers Carry · 100m Row · 10m Sandbag Lunge · 6 Wall Balls

MINI HYROX — FOR TIME

- 300m Run
- 300m Ski
- 300m Run

- 300m Run
- 30m Sandbag Lunge @ HYROX loading
- 300m Run
- 30 Wall Ball @ HYROX loading

Zero rest between stations. The run is the rest. Log your total time — this is your baseline.

COOL DOWN

3-5 min easy cardio · 1:00 Banded Hip Internal Rotations · 1:00 Alternating Calf Stretch

COMPLETE REST

All Programs · No training. No exceptions.

The adaptation happens here — not during the session. The session is the stimulus. Rest is where you actually improve. Sleep, eat, hydrate. Nothing else.

REFLECT ON YOUR WEEK

- Which sessions felt strongest? Which exposed a clear weakness?
- Did RPE targets feel accurate? Over or under-estimating?
- Biggest limiter: running, strength, conditioning, or recovery?
- Any equipment gaps that blocked a session?

Honest self-assessment after week 1 is more valuable than any fitness test. Athletes who skip this step always end up either under-trained or injured in Month 2.

WHAT HAPPENS ON DAY 8

You already chose your program and added your card when you started this trial. No action is needed from you before day 8.

On day 8, if your payment processes successfully, you will receive a second email with your TrainHeroic access code — specific to the program you already selected. That email is your entry point into the full coached system.

STEP 1 — Check your email on day 8

- Your access code email arrives automatically after payment.
- It contains a unique code for your specific program.
- If you do not see it, check your spam folder or contact teamlopestraining@gmail.com.

STEP 2 — Download TrainHeroic

- iOS: search "TrainHeroic" on the App Store.
- Android: search "TrainHeroic" on Google Play.
- Create your athlete profile inside the app.

STEP 3 — Enter your access code

- Open the app and enter the code from your day 8 email.
- You will be added to your program team immediately.
- Your first live session will be posted and waiting.

STEP 4 — Week 2 begins

- Week 2 picks up exactly where this trial left off.
- Same structure. Increased load. Progressive overload starts now.
- Show up. Execute. Repeat.

Want to cancel before day 8? No charge. No questions asked. Visit: billing.stripe.com/p/login/8x26oH16KbBi8og9NeejK00
